K-O Polio Date Set For April 21

K. O. MEANS KNOCK OUT POLIO. Hancock County has the opportunity to be rid of polio forever - but it takes your cooperation to do it. Every man, woman and child in Hancock County should turn out for his oral Sabin vaccine. Two drops on a lump of sugar, sweet and easy. Clinics for distribution will be held at the following locations:

1. Bay St. Louis Youth Center
2. Waveland School
3. Clermont Harbor Youth Center
4. Valens C. Jones High School
5. Logtown School
6. Hancock North Central High School

Plan now to be there: SUNDAY April 21, 1963, 11:00 o'clock until 6:00 p. m.

Even though you have had Salk shots you should get the added protection afforded by Sabin vaccine. Your immunity will be improved and prolonged.

Remember the date, April 21, for victory over polio it will take just a few minutes of your time to bring the whole family and completely knock out polio.

QUESTIONS AND ANSWERS ON KNOCK OUT POLIO

Q. What is the "K. O." Program?

A. "K. O." is the symbol for a mass immunization program to be held in Hancock County. "Knock Out Polio" is the goal.

Q. Who should take this vaccine?

A. All persons residing in Hancock County. This includes everyone, from babies to senior citizens.

Q. When will the program start?

A. The first date is Sunday, April 21.

Q. What will happen at the clinics?

A. Each person will be given a dose of Type I Sabin Polio Vaccine. Two drops of vaccine on a sugar lump.

Q. What will this cost?

A. A donation of 25 cents to help defray the cost of the program is being requested for each of the three doses of oral vaccine. Everyone will be immunized whether he contributes or not.

Q. What time may I go to the clinic?

A. The clinics will be open from 11:00 o'clock until 6:00 p. m. It will take you just a few minutes to get your vaccine.

Q. I have had the Salk polio injections. Should I take this too?

A. By all means! While the Salk vaccine was a very important step, this vaccine provides more complete protection for a longer period of time. Sabin vaccine also prevents you from being a carrier of the dread virus. This means protection for the whole community because the virus can be eliminated from the area.

Q. Is there any danger in taking this vaccine?

A. It has been given to millions of people here in the United States as well as millions elsewhere in the world. There have been no reactions in all these people.

Q. What about pregnant women?

A. They should take the vaccine. It will protect them without causing them any trouble, and it may give temporary protection to the newborn.

Q. If I am sick, should I take the vaccine?

A. If you are troubled with vomiting or diarrhea it would be better for you to take your vaccine at a later date.

Q. I am a diabetic. Should I take the vaccine? What about the sugar lump?

A. Diabetics, like all others, should take the vaccine. The sugar lump contains 9 calories, so it will not upset the diabetic. If you wish, the dose can be given to you directly from a dropper.

Q. Does the vaccine taste bad?

A. There is no taste to it.

Q. Will this one dose give me complete protection?

A. This dose will give protection to Type I only. Type II and Type III will be given in the very near future.

Q. Who is sponsoring the clinics?

A. The Hancock County Medical Staff, the Junior Chamber of Commerce, and the American Legion.

SIDE-WALK COFFEE BENEFIT CANCEER FUND DRIVE

Four Held for Hearing

Four Wiggins, Miss., men all over 18 arrested in Bay St. Louis Sunday by Chief Deputy Sheriff G. V. Price, Jr., are being held in the County Jail awaiting hearing before Beat 5 Justice of the Peace Nelius Rhodes.

Price, who identified the men as Max, Eli and Frank Loper and Cecil Horn said they are being held on charges of the alleged forgery of an indorsement to a \$241.00 check written by two Gulfport contractors and for contributing to the delinquency of a minor.

According to Price, Nancy Pernicari pulled their car out of a bog on the Kiln road early Sunday morning and the check allegedly taken in Gulfport was left with him to be cashed.

Pernicari, who became suspicious questioned them when they returned to the station for their money later Sunday.

They fled and Pernicari, he added phoned the Sheriff's office. They were apprehended shortly after by Deputy Sheriff Price.

A detainer, Price added has been placed on the four by Gulfport officers.

Joe Graham and Teddy Stechmann, seen as Alan and Buddy in the fast paced comedy, "Come Blow Your Horn", which runs at the Little Theatre April 18th.

COME BLOW YOUR HORN SLATED APRIL 18 - 19 - 20

Bill Simon's rollicking three-act comedy, "Come Blow Your Horn", will be the first 1963 presentation of the Bay St. Louis Little Theatre.

A three night run is scheduled starting Thursday, April 18th, 19th and 20th, at the Playhouse Boardman Ave., curtain time 8 p. m.

This highly publicized play was first presented on Broadway during the fall of 1961, starring Hal March. It is still playing to capacity houses in New York, and Chicago, and is being filmed starring Frank Sinatra and Dan Aykroyd.

Local fans will be introduced to a new actor, NASA's Joe Graham. Smooth sophistication, coupled with debonair poise of a "big man about town", enables Joe to provide a perfect foil for the rascled comedy provided by own versatile Teddy Stechmann, who shares stellar honors the younger son determined to follow the glorious example set his bachelor brother, in living carefree life.

And, the hard working father and mother, who has amassed a fortune which provides material for the young men in order to indulge in their gay existence, hilariously enacted by Herb Schellmann.

Not to be outdone by the males, women come into their own in three new actresses gracing the stage. Again the SPACE group contribute to the roster, with a portrayed by Marcy White, whose husband Bob is a Raytheon Engineer.

Marcy who resides in Long Beach, will be acclaimed one of the most professional, and clever actresses an amateur group might hope to acquire.

The lovely young woman who is the heart and naturally the life of the reluctant gay blade, is played by Nora Bolton, Pass Christian, who migrated from Chicago, via California to our Mississippi Gulf Coast.

A polished and trained actress, she has appeared with the Gulf Theatre of Arts cast in "The Importance of Being Earnest", starred in the difficult comedy role created by Barbara Beland, in "The Moon Is Blue".

A new talent discovery is an aim Little Theatre. Dennis Seuzeneau, seventeen year old daughter of Clara and George Seuzeneau, senior student of St. Joseph Academy, is talent. Cast in a key role, which requires professional restraint, Dennis is provocative and alluring.

Founding out acting talent is Elaine Samuel. Throughout the fifteen years of life of the local Little Theatre, Elaine has proven mettle and displayed varied talents. A skilled actress and successful director she is always be reckoned with, and can steal away with a line.

Adding up the cast, stage work, produce excellent effects, were designed by N. L. "Turk" O'Leary, executed by him, Capt. Gold Powell, and Rosemary McDaniel. Credit for stage setting due Ann Ashman. Lighting, and effects and curtains, by Billmas, Capt. Powell, Slove Eastman, Pass Christian, and Ricky Schumann. Properties, by Annman. Lorraine deMontuoz, painting - Ezelia Ling, Beverly Schumann; make-up Sidney and Egle Woods.

HARC TO SEND DELEGATES TO STATE CONVENTION

The Hancock Association for Retarded Children held its regular monthly meeting Thursday, March 28, 1963, at the Children's Center.

President Warren Carver reported that the interest in forming an association to work with the negroes of the county had been evidenced by Professor Price of Valena C. Jones School, Sister Leonardine, St. Rose de Lima, and Melvin Altimus, of Knights of Peter Claver.

Mrs. Irma Baker reported on the Conference for Handicapped Children which she attended in Jackson, Miss., on March 5. There are over 200 known causes of brain damage. Funds are urgently needed for additional research, prevention, and care. One of the hardest jobs is educating the public and counseling the parents. These exceptional children need management, consistency, and love. Those working with retarded children were urged to "Love the Child; don't force him" and "Love them enough to be hard."

A telephone committee was organized to contact all members of the organization personally and encourage them to attend meetings.

Mr. Carver announced that the annual convention of the Mississippi Association for Retarded Children would be held May 3 and 4 in Jackson and suggested that a delegate be sent from the local unit. Selection of the delegate will be made at the next meeting.

YOUTHFUL CHATTER

BY TONI BLAIZE

Hats off: To the B. H. S. Seniors for a job well done on their presentation of Hillbilly Wedding. Also to the young scientists of Christ Episcopal School who journeyed to Hattiesburg for the State Science Exhibit.

YOUR CITY NEEDS YOU! A big civic project will begin April 21 at 4 p. m. K. O. Polio Campaign. Pitch in and help not only with cooperation, but a few volunteers may be needed to handle the waiting to's. Let's show our elders that we have what it takes to be good civic minded citizens.

Diamonds!! A boy's best friend? Baseball season is here again. The C. Y. O. will spill a double header with the Roland Sign's Sunday afternoon. The B. H. S. Tigers yielded a conference game to the Greyhounds of Ocean Springs, Monday afternoon.

What will penny savings bring? Here's food for thought. Virgie Benigno, a senior at S. J. A. is planning to enter L. S. U. this fall where she will bring not only her sweet personality, and winning ways, but also a brand new red Oldsmobile.

Members of the House of Episcopal Young Churchmen will attend the annual Spring Conference in Meridian on April 24th through the 28th. Those planning to attend are Leslie Pepperdine, Linda McCulloch, Holly Ruch, Hope Sewell, Jay Sewell, Mike Poindexter, Becky Adams, Sue Porter, and Mary Hoagland.

With Easter approaching, many of us will be sporting new outfits and attending the services of our choice. But let us not forget the true meaning of this great day. Easter is the festival of the Resurrection of Christ. On this, the third day after the Crucifixion, the Soul of Our Lord was united with His Sacred Body and Christ rose from the dead.

Let us show not only our new outfits, but also our appreciation to Christ for all the agony and suffering that He willfully endured so that we may strive for eternal happiness. Let us put meaning in our Easter Day by remembering Christ.

HAPPY EASTER TO ALL!!

HARRIS DEATH IN NEW ORLEANS

Norvin Trent Harris Jr., brother of Mrs. Clem Penrose of Bay St. Louis died at 6:30 p. m. Friday, April 5, in New Orleans.

Social Security

It is almost that time again, April 15, 1963, a date which has a double meaning for over 10 million people who are receiving social security benefits. Yes, April 15, 1963, is a deadline for filing your 1962 Federal income tax return, but it is also the final date for social security beneficiaries to send their 1962 Annual Report of Earnings and Estimates of 1963 Earnings to the Social Security Administration. Did you receive social security benefits for even one month in 1962? Then this article is meant for you. Take a minute or two to read it. It may save you time and money later.

If you received social security payments in 1962, unless receiving them as a result of disability, you are required to make an annual report of earnings if:

1. Your total earnings from employment and self-employment amounted to more than \$1200 in 1962.

2. You were under 72 in any month last year.

An estimate of what you expect to earn in 1963 is required. The deadline for filing this report is April 15, and failure to report your earnings on time may cause you to lose extra social security payments. Jerome H. Drane, district manager of social security in Gulfport, states that copies of the 1962 Annual Report form are available at his office and may be requested by mail or telephone.

If assistance is needed in completing the report, a representative of the Gulfport social security office will be glad to help you, Drane said.

clerical jobs under Civil Service were advised to make application for examination through the New Orleans office of the Civil Service Commission.

In guiding young people to prepare themselves for the future, he strongly advised high school students to acquire a solid background in math, physics, and chemistry with adequate knowledge of English and the Social Studies. He quoted Dr. Werner Von Braun as saying "There is no limit, no barrier to your future but yourself."

NASA OFFICIAL ADDRESSES HNC STUDENTS

Mack Herring, Public Information Officer, for the Mississippi Test Facility in Hancock County, told the students of HNC that by the end of 1963 there would be 3,000 construction workers employed at the Test Facility. He predicted that by July 1, 1966 the facility would be in full operation with NASA employees numbering 150, Boeing 500, North American 500, Chrysler 175, and the support or service contractors' 1000.

He emphasized the great need for engineers in all fields and skilled technicians to back them up (25 skilled technicians are needed for each engineer). All types of employees will make every effort to employ local people. NASA will open a public information office on Highway 43 by the first of June where full information will be available. BAY HD CLUB MEETING RECENTLY

Members of the Bay St. Louis Home Demonstration Club answered the roll call with "What I might do to improve my club" last at last Thursday's meeting at the home of Mrs. Lillian Bond with Miss Beale Delph, Mrs. R. T. Breland and Mrs. Wallace Chevis as co-hosts.

The thought of the month was "Politeness is an easy virtue," costs little and has great purchasing power.

Mrs. O. Duke, new member was introduced to the group and the dress review to be staged April 23 was discussed.

Mrs. R. F. Gray, who presided in the absence of the president Mrs. C. R. Beyer, gave tips on parliamentary procedure.

Mrs. Price gave a resume of trips on the school bus to place of interest in Mississippi.

Mrs. Marcia Hughes, home agent, gave a demonstration on lighting the home, and she also reminded members of the council meeting April 26, at the Agriculture Center.

The April meeting will be held at the home of Mrs. T. P. Clapp.

IMPORTED HAM

Today's young homemaker, unlike "Mother Hubbard," keeps the cupboard and refrigerator well supplied with foods for family meals and those surprise parties and guests. The modern Mother Hubbard doesn't look for a bone for her dog... she offers him a tidbit from a piece of imported boneless Polish ham. We advocate the policy of keeping two in the refrigerator... one for ready use and one to have on hand so that you're never without this versatile food which can be prepared or served as-is for so many meals and snacks.

This ready cooked, lean, every-bit-edible ham can be sliced, cubed, ground, diced, or served whole, hot or cold for some of the best eating you've ever enjoyed.

Using a little ingenuity and with a few sweeps of the hand, this Party Sandwich Loaf recipe can be prepared like magic. Though the picture suggests a child's party theme, the delicacy is equally welcome to teenagers and older folks. The loaf goes together like long building blocks, the structure held intact with the smooth plastering of cream cheese frosting.

Children, especially, can have great fun by cutting long slivers of cucumber peel to make stems for the canned or cooked apricot flowers decorating the top and (if you wish) around the sides of the loaf. For easier slicing be certain that loaf is made and refrigerated several hours before serving.

PARTY SANDWICH LOAF

1 one-pound loaf unsliced bread, crusts trimmed off. Cut lengthwise in four slices.

To build loaf:

1. Place one slice on cutting board.

2. Butter to edges, cover with 6 slices of imported Polish ham.

3. Cover with second slice of bread. Butter to edges and cover with six slices of American cheese.

4. Cover with third slice of bread. Butter to edges. Spread with chopped hard-cooked eggs moistened with mayonnaise and seasoned to taste.

5. Cover with fourth slice of bread.

6. Frost with 2-8 oz. packages cream cheese (soften cheese and mix with 1/3 cup cream).

Chill until ready to serve, cut into slices.

SUNRISE IN HOLLYWOOD

This is the city where pretense is a profession . . . where emotion is an art. This is Hollywood's famous Bowl at sunrise on Easter morning.

Thousands raising their hearts and prayers to the Lord of Reality . . . of Truth!

Don't be deluded by the artificiality which sometimes claims the center of life's stage. There is a hunger in the souls of men which our air of well-being cannot hide. There is frustration, futility, despair—and man's calculated unconcern cannot disguise it.

To our churches—to worship, hymn and prayer—we turn when we tire of dreaming and pretending. Can we claim any glory greater than that we are the children of God? Can we own any allegiance bolder than that we are the disciples of Jesus Christ . . . Risen, Victorious?

Easter is the climax of life's drama . . . on which the curtain never falls!

THE CHURCH FOR ALL... ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

HONORED ON RETIREMENT

Ira J. Clark, Sr. of Waveland, who retired from Federal service at Keesler AFB Wednesday (Mar. 27) was presented his certificate of service by Col. Dana F. Hurlburt, commander, 3380th Civil Engineering Group in ceremonies at group headquarters. Mr. Clark had served at the Biloxi base since Sept. 1941 as an operating engineer in the heating division. (USAF Photo)

A civilian employee whose Federal service at Keesler AFB closely matched the 22-year history of the Biloxi base retired Wednesday. He is Ira J. Clark, operating engineer in the heating department of Civil Engineering Group.

Mr. Clark, a native Biloxian, was presented his certificate of service by Col. Dana F. Hurlburt, group commander, in ceremonies at CE Headquarters.

Working at the Base since Sept. 11, 1941, Mr. Clark recalled that the first boiler set up was in the open at the east end of Mess Hall row with scrap wood used as fuel. The boiler provided steam for the mess facilities.

Mr. Clark went on duty at the Base hospital in April 1942, serving as a heating operating engineer for the medical facility throughout the remainder of his civil service career, both in the old hospital and the new one.

A veteran of World War One, he served with the Army in France 15 months. Before entering civil service, he had been in the laundry business in Biloxi.

Mr. Clark has six children, all living in Biloxi: Ira, Jr., Mrs. Frank Pates, Mrs. Richard Giraud, Mrs. Louis Gaines, Mrs. Harvey Fuller and Mrs. Milton Gussow.

Now residing in Waveland, Mr. Clark and his wife, Carrie, have their home at Bay Side Park. Plenty of fishing and some gardening are among his plans for the future.

It's a grand and glorious feeling to know that the bad weather of winter has gone and that the ideal weather of the past week makes most everyone feel like taking to the outdoors for such things as fishing, boating, camping and the many other things offered here on the Gulf Coast. The City folks are preparing to come over to their summer homes if only for the weekend until the kids get out of school for the summer.

Fishing has improved, soft crabbing and floundering is better. Nothing to see Son Taconi walking the water out front early in the morning, picking up soft crabs.

Son has a fishing camp on the beach for years and is a barometer on this kind of sport and when you see him out you will know that the crabs are there also. As for fishing out front see Son you'll get good advice.

According to observation there should be millions of black berries in the woods soon.

Blossoms are on the bushes now. What's better fun than taking the kids out to pick black berries, making jam, black berry pie, etc. they are there only for the picking but beware of the snakes they love to hang around black berry bushes.

Speaking of snakes, they are now making their appearance accordingly to those who go hunting them. They can have this kind of sport for my part.

A good snake is a dead snake.

Soft shell crabbing is improving. See lights out each night, haven't gotten the real dogs, etc. them as yet. Floundering is also getting better. Go out and give them a try.

Have had some good reports on fishing. Fresh water fishing is better and specks and other fish are still being caught by those who walk the bridges out front and cast for them.

Al Mercier is out most every day. Doggone it he says, missed some good ones the other day. "You have got to hold your mouth right all!"

According to an article in the Times-Picayune this week the Mississippi Supreme Court has given a ruling in a fishing case as follows:

Out-of-State fishermen must have Mississippi license in order to fish in privately owned landlocked lakes even if they are guests of the owner, the state Supreme Court held Monday.

The case came up to the Supreme Court as a result of the arrest of Zack T. Heard, New Orleans, for fishing in Red Gap Lake in Stone County without a non-resident license which costs \$6.25.

James N. Harsh, a former New Orleansian, had built the lake on lands he owns in Stone County, stocked it with fish and allows invited persons to fish for \$1 per day.

GAME FISH COMMISSION

Heard had been acquitted by the Stone County Circuit Court but the State Game and Fish Commission, to decide the question of law, had appealed to the state Supreme Court.

By a 7 to 2 decision, the majority supported an opinion by justice W. N. Ehrhardt that the statutes enacted by the Legislature exempt only the owner of a private lake and children under 14 from having a fishing license to use the lake.

Mississippi opened its offshore oyster reefs for dredging for the third time this year, according to the Mississippi Marine Conservation Commission.

The season opened for 10 days and a maximum catch of two loads a boat was set by the Commission. Charles E. Weems, vice chairman of the commission, said he estimates another 20,000 barrels of oysters will be harvested during the 10-day period.

About 211,000 barrels of oysters, 3/28/4times

have been dredged from the reefs this year, not including oysters taken from tugging reefs, it was reported.

Visited in Pass Christian the other day and chatted with old friends such as Chick Spier with whom I worked over 36 years ago on the Pass Christian paper. Chick informed me that Guy Hanson another old timer visited the Pass about two weeks ago after being away for quite a few years. Guy now lives in California, for your information.

The R.L. Simpson family have readied their home in Pass Christian and will spend this weekend there. Good times are planned for the summer months.

Chep Richardson and the family had a fish fry recently at their camp out Main St. Chep is not the best fisherman, but can really clean and cook fish. See you later Chep, will furnish the fish.

The tides are getting back to normal with low tides in the early mornings and a full moon on April 9. Look out soft crabs the boys are coming.

Soft crabbing is a sport that each member of the family can enjoy. Better get those lights rigged up.

Alva Ruhr Sr. got his share of soft crabs the other night. Alva knows his stuff about getting them.

Mr. and Mrs. Frank C. Heumann really enjoy their home on the Kiln road near the Bay. They love to fish and crab. As guests this week they had Mr. and Mrs. J. Langenstein of Metairie, La., parties are always in order at this home. Mr. and Mrs. Heumann are ideal hosts.

Have been invited by Sid Jones to make a fishing trip out to the

rigs in Louisiana, one of his boats. The crew on this boat is Capt. Jimmy McArthur, Robert Corr and Frank Schoonmaker. The boat leaves from Leeville and is out 7 days.

Looking for a good time Sid. THANKS!

Met two swell guys this week, Arthur Wolpert and Harry Rowley special representatives of the Atlantic Brewing Co. of Nashville, Indiana who was working with Lucien Kidd, local representative for Regal Beer. Wolpert said when they visit Bay St. Louis very little work is done. Between ruling in

the fish game, the new invention is pretty well taken up. They have a swell box. The new box can do away with can openers. The fishermen will enjoy the new invention.

50 FAIL TO FILE

Tax Assessor George Heffzmann said this week only 50 homeowners of the 3500 eligible in Hancock County failed to file application for homestead exemption.

The deadline for filing was April

SOIL CONSERVATION NEWS

The Hancock County Soil Conservation District has accepted 10 new S. C. D. cooperations from January 1, 1963 to date. These 10 farmers represent 1495 acres of land that is being planned for soil and water conservation. It is the objective of the district to get all the land in the County under a soil and water plan and thereby work toward the goal of getting conservation accomplished on the land affected. No plan can work without the help of the man who controls the land.

The following people drew up conservation plans for their land holdings mentioned above:
Mrs. Carl Heitzmann, Bay St. Louis, Miss.; Alvin Kingston, Hancock County 16 Section, Hancock County; William Holden, Memphis, Tenn.; Jack Lott, Kiln; N. W. Kohnke, Fenton; Edward Kohnke, Fenton; and Randolph Zengaring.

It appears there is a need for many more firebreaks to be plowed, and it is generally recommended that the firebreaks be at least 12 feet wide to provide adequate protection. Firebreaks should be plowed on, or near the property boundary, or about every 40 acre block for best protection. All firebreaks should be re-established annually and all roads and woods trails should be cleaned at least annually of all fuel material, providing some protection from wild fire.

There has been several thousand acres of idle woods land planted to pine trees in recent years. Fire is detrimental to the growth of these young trees, if not fatal to most, and fire slows the growth of older pine timber.

It should be protected. When all the fuel is removed from the top soil, water has no check mate, and as a consequence, erosion will certainly begin - so, Nail down that top soil.

1963-64 DAIRY SUPPORT PRICES SET

Dairy support prices for the 1963-64 marketing year have been set at \$3.14 per hundredweight for manufacturing milk and 58.1 cent per pound for butterfat, John W. Haynes Office Manager of the Hancock Agricultural Stabilization and Conservation County Office, said today. These prices reflect 75 percent of the latest parity prices for the two commodities. If the parity prices are higher as of April 1, the beginning of the 1963-64 marketing year, the support prices will be increased.

Dairy support prices are mandatory between 75 and 80 percent of parity, the chairman explained. The law requires that the Secretary of Agriculture set within this range, the level "necessary in order to assure an adequate supply."

With milk production continuing at high levels and dairy price support for the coming year at the minimum level.

In carrying out the program to support prices of milk and butterfat sold by farmers, the Department of Agriculture - as in the past - will offer to purchase butter, cheddar cheese, and non-fat dry milk in carlot quantities. Even though support prices are higher for the coming year, buying prices for butter and non-fat milk are exchanged from the current year's prices because last year's experience indicates that these prices together with an increase of 1 cent in the cheese buying price will keep producers average returns at the national support levels announced for the coming marketing year.

UL LABEL-Your Guardian

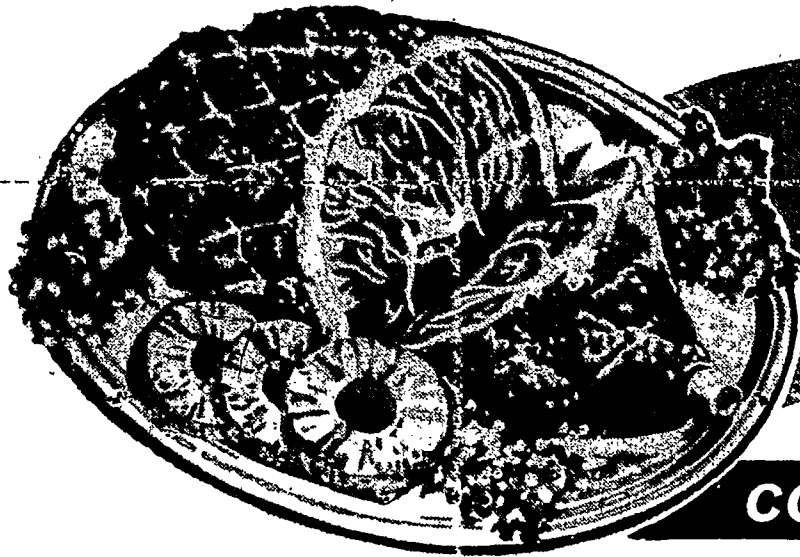

Did you know that even incubators for premature babies carry the Underwriters' Laboratories label? It's the symbol of protection for the precious occupants.

And did you know that thousands of other products besides your electric blanket, lamps, toaster, and coffee maker pass rigid tests to earn the UL label — things such as gypsum wall board, glass bricks, concrete blocks, and some asphalt shingles.

If you're shopping for a new roof or buying a new car, look for the UL label — it means they've passed strict laboratory tests and been checked during production to assure reasonable satisfaction with performance as well as safety.
